Hon Ming (Guang Dong) Air-Conditioning Equipment Co., LTD (Hon Ming)

MK Series Line of CTI Certified Cooling Towers CTI Certification Validation Number C66A-15R02 August 4, 2017 (Revision 2)

Footnotes:

1. Multiple cell configurations of the single cell models above are also available but not listed individually. Multi-cell configurations are end-wall to end-wall arrangements of the single cell designs which do not impact the air flow rate or capacity of the individual cells, and are included in the certification. See example model number below.
2. Certification includes tower construction materials indicated by suffixes A, D, S and DS which are added to basic model numbers above where:
 - A is for FRP casing, basin and fan stack, HDG mainframe and hardware.
 - D is for HDG casing, basin, fan stack, steel plate mainframe and hardware.
 - S is for stainless steel casing, basin, fan stack, mainframe and hardware
 - DS is for stainless steel casing, basin, fan stack, HDG mainframe and hardware
3. Certification includes units with optional gear drive in place of standard belt drive.
4. Certification includes optional items that do not affect thermal performance, for example, access ladder and handrails.
5. Suffix 'X' is affixed to model numbers of units that are not CTI Certified, due either to application or product accessories or modifications.
6. Certified Model Number Example: MK-6001/A × 2
Where: MK – Line Designation
6001 – Model Number
A – FRP casing, basin and fan stack, HDG mainframe and hardware
× 2 – Two cell arrangement of the primary certified model (capacity equals 2 times rated capacity)
